Dear Volunteers and Supporters,

As we celebrate our 10th anniversary, we are thrilled to share an exciting milestone. For the fourth consecutive year, AYLUS Pearland/PROMIS has successfully raised significant funds through a variety of community-driven initiatives. In line with our mission to support the Pearland area and beyond-encouraging collaboration among youth organizations and providing seed funding for meaningful, youth-led projects-we are proud to announce that we have allocated \$2,500 to the following ten organizations:

Pearland Robotics Booster Organization (Pearadox)

An organization of 80 students from Robert Turner College & Career, Glenda Dawson, and Pearland High Schools, alongside 15 STEM mentors. They use robotics to build confidence and inspire youth. Funds will go toward robot parts and consumables. Pearadox will partner with AYLUS Pearland/PROMIS to continue offering community robotics classes.
